WINTHROP, MA, February 10, 2012 **/24-7PressRelease/** -- Robin G. Coles has always had a fascination for the ocean and took up sailing ten years ago. In her book she has tried to cover all of the basics as well as some more advanced boating topics for old salts. It's filled with lots of answers to questions such as: how to buy the perfect boat for you and your family, getting insured and financed, what's involved in a marine survey, and even renting a boat. Other tips include customizing your electrical panels, search and rescue, how to handle bad storms and heavy weather in your area, Digital Selective Calling (DSC), Automated Identification Service (AIS), the advantages and disadvantages between catamarans, trimarans and proas, plus how to make a living as a professional sailor. Coles book also includes a bonus chapter on selling your boat, plus a list of useful resources.

Coles' book will not replace any classroom instruction, but promises to be a great reference guide and entertain through the use of amusing stories. This book is for both power and sail boaters.

Robin G. Coles, author of *Boating Secrets: 127 Top Tips to Help You Buy and Enjoy Your Boat*, is available for talks about her interviews with the eleven marine industry experts that helped her make this book a success.

A schedule of her upcoming book signings can be found on her website at: <http://TheNauticalLifestyle.com>

#### About the Author:

Robin G. Coles is a passionate marine enthusiast and sailor who has interviewed countless industry experts as well as visited, interviewed personnel at, written about, and photographed hundreds of marine ports in the US and abroad. She has also authored a newspaper column (Mariner News) and a variety of articles about boating and non-boating articles.
