WINTHROP, MA, March 02, 2010 **/24-7PressRelease/** -- Robin G. Coles of TheNauticalLifestyle adds speaker Tracy Sullivan of Almeida & Carlson to New England Boat Buyer Seminar series. The first date is set for March 13, 2010 at Marriott Courtyard East Boston, MA. "You're spending a lot of money to buy a boat," Sullivan says, "it's an investment and you should protect that investment."

This New England boat buyer seminar offers enthusiasts an opportunity for like-minded boat buyers to meet together, ask questions and learn from yacht brokers, surveyors, insurance, financial brokers and Coast Guard Auxiliary.

Coles states there's a lot to know when buying a boat, especially your first one. For example, if you buy a used wooden boat, yacht clubs and marinas require full insurance coverage. Buying a boat an extra foot or two bigger could make a huge difference in comfort and lifestyle. At this seminar our industry experts will teach boating enthusiasts how to choose a boat that's right for them and their family, the difference between used, repos, a boat
